CorasWorks - Applications for SharePoint

community.corasworks.net

*June 9, 2010*

Over the last couple of weeks innovation has been high at CorasWorks and in the Community - first, because there is a lot of traction around our Idea Management solution, second, because of the flexibility of our solution framework, and, third because we have a new platform to innovate on - SP2010. Along with the weather, things keep heating up...

## News and Events

- [CorasWorks and AvePoint Announce Comprehensive Support of SharePoint 2010](#) - This release highlights our relationship with AvePoint. We take care of the application tier, they handle the administration tier - result is that you are covered top to bottom on SP2010.
- [Leading Companies, Government Entities Continue to Invest in CorasWorks Applications, Solutions for SharePoint](#) - Release listing our recent customer wins.
- [CorasWorks Idea Management \(Cim\) v1.1 for SP2010 Showing at TechEd](#) - Tech Ed is going on this week in New Orleans (talk about hot). We are showing the new v1.1 of Cim. This article gives you a quick overview with sizzling screenshots.

### Solutions

- [Process Improvement Workstream](#) - In this article, we drill down into a specific business scenario. It provides a walkthrough of a 3-phase, end-to-end process improvement workstream based upon Cim. See how ideas move from capture, to review and approval, to implementation - cutting across a multi-department SharePoint landscape.

### Blogs

- [Using Sandbox Solutions on SP2010](#) (*Adam Macaulay*) - This article published at EndUserSP2010.com walks you through uploading, activating and using Sandbox Solutions - a new type of app/site template on SP2010.
- **Series for CorasWorks Idea Management (Cim)** (*William's Blog*) - Cim is a hot solution. In this series William provides an introduction to Cim the solution and common best practices for using idea management to drive business results.
  - [Cim for SharePoint - Introduction](#) - short overview of the solution
  - [Cim- Driving Results with Events and Web 2.0-Style Features](#) - going from passive communities (Suggestion Box of old) to proactive Challenges, Campaigns and Contests
  - [Cim - Differing Business Scenarios](#) - discusses 4 business scenarios and how you plan and implement them from ideation through implementation
